

Lunar New Year Lantern: Now that you have learned about the traditions and symbols of the Lunar New Year, how about making your very own lantern? Color this sheet using reds and golds. Then construct the lantern following the directions. Then tie a string through the holes to hang it up. Decorate with tassels, golden paper, glitter etc., and hang it at home! DIRECTIONS: 1. Punch holes on the right edge at the black dots. 2. Fold this sheet in half along the vertical red line. 3. Cut from the folded edge along each of the dotted lines stopping where the line ends. 4. Open the sheet flat and put glue over this entire shaded area. 5. Bring the bottom edge up from behind and stick it to this top edge keeping the colored side on the outside. Happy Year of the Tiger!
