

# Finger Puppet Ponchos

**poncho:** a cloak originally worn in South America, made of a rectangular or circular piece of cloth, especially wool, with a hole in the middle for the head.

## Directions:

1. Cut out the 4 ponchos from this sheet.
2. Fold them in half and cut on the dotted line to make the slit.

3. Decorate the ponchos using designs from objects you have seen, or come up with designs of your own.
4. Use the graph paper background to help make your designs symmetrical.
5. Make the fringe by coloring it in and snipping on the lines with scissors.
6. Put your finger through the slit you cut and you have a finger puppet wearing a poncho.
7. Now invite the finger puppets to put on a fashion show. Ask each other questions about your ponchos.

What is the design on your poncho?

What inspired you?

Is that a design you came up with?
